Lucas Becker

Swift Developer

Berlin, Germany · lucas.becker@example.com

SUMMARY

Swift developer with eight years of iOS work for travel and agency clients. Mostly UIKit; has started on SwiftUI in an internal prototype. Dependable on features, bug fixing and release builds, and keen to grow into a senior role.

EXPERIENCE

Swift Developer, Fernweh Travel 2020 – present · Berlin

Trip booking app for independent travellers

- Build and maintain the booking flow in Swift and UIKit for the live app.
- Prototyped two screens in SwiftUI for an internal beta; the live app is still UIKit.
- Fixed memory leaks and crashes from the crash logs using the Xcode memory graph.
- Added VoiceOver labels to the booking and payment screens.
- Calls REST APIs with URLSession and Codable, and wrote unit tests for the pricing code.

Junior iOS Developer, Brightfield Digital 2018 – 2020 · Berlin

Digital agency

- Built Swift apps for agency clients with Storyboards and Auto Layout.
- Handled TestFlight builds and App Store submissions for six client apps.

SKILLS

Languages	Swift, some Objective-C
Frameworks	UIKit, Auto Layout, Core Data, XCTest
Learning	SwiftUI (prototype only)
Data and tools	REST, URLSession, Codable, App Store Connect, Git
Spoken	German (native), English (fluent)

EDUCATION

BSc Applied Computer Science, a university in Berlin 2015 – 2018
